

TDM5 - How To How to fill a playlist with content.

Introduction

TDM5 offers the ability to create playlists and add pages which can be used to send content to a device.

Requirements

If you want to fill a playlist with content you need to meet the following requirements:

- Have access to: Designer > Playlists and be able to edit a playlist.

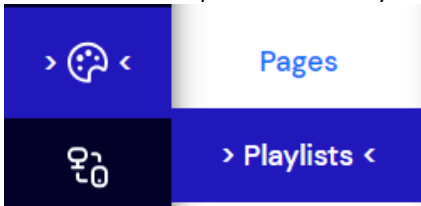

How To fill a playlist with content

1. Login to your TDM5 environment.

2. Select “Designer”.

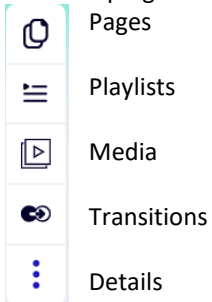

3. Select the menu option called “Playlists”

4. Select ‘Edit’ to open a playlist.

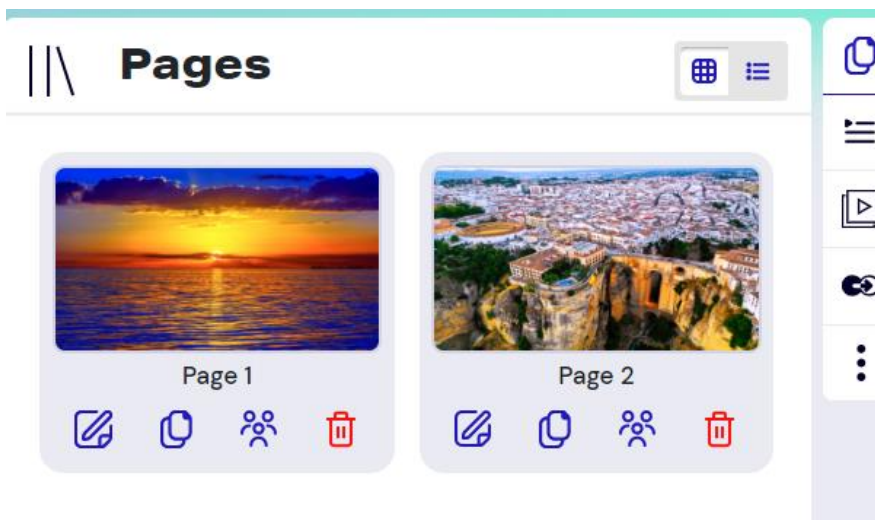

5. On the top right side you will see 4 options:

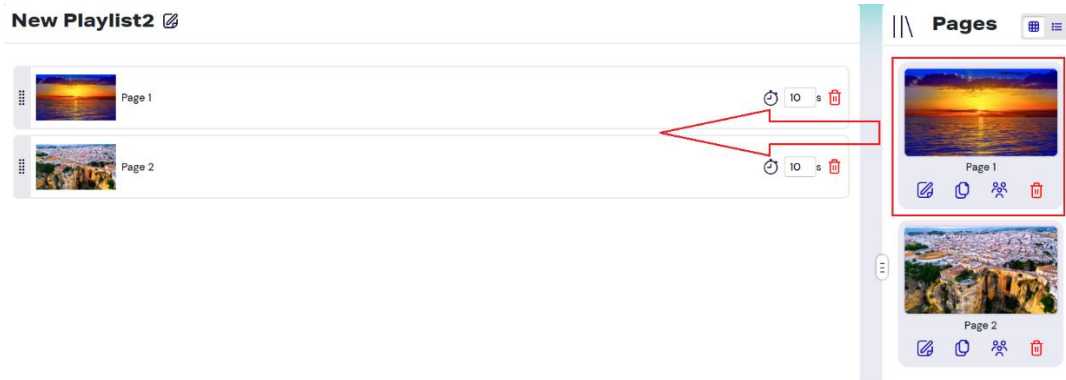

To fill your playlist with content you can use the first three options (Pages, Playlist and Media)

6. Select one of the three options, now you will see the content connected to this option. In this example we select “Pages”.

7. Drag and drop the content which you want to add to the playlist.

You have successfully filled a playlist with content.
Please check our manual 'TDM5 - How to add transitions' for more information regarding the playlist workflow.
