

TDM5 - How To delete a schedule

Introduction

TDM5 allows you to create schedules for specific times and/or days. A schedule can be linked to content but also to an action like powering off your device. With this functionality you can schedule actions for events or other occasions without having to change the state of the devices manually.

This article will describe how a schedule can be deleted.
Additional articles regarding schedules can be found in our knowledge base.

Requirements

If you want to delete a schedule you need to meet the following requirements:

- Have access to: Devices > Schedules.

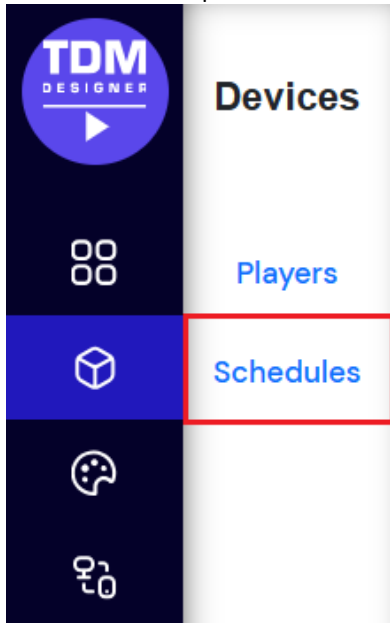

How To delete a schedule

1. Login to your TDM5 environment.

2. Select "Devices".

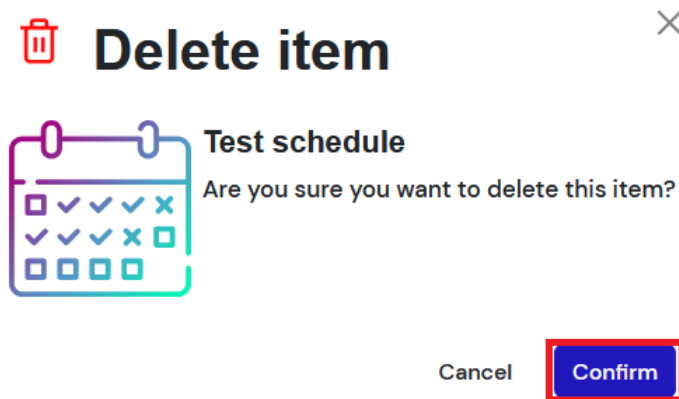

3. Select the menu option called "Schedules"

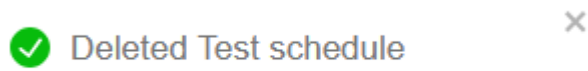

4. Select the option 'Delete' to delete a schedule.

5. A pop-up will appear asking if you want to delete the schedule, select 'Confirm'.

6. A message will be shown confirming that you have deleted the schedule.

You have now successfully deleted a schedule, you can repeat this process to delete any additional schedules.
